**RAMESH, SUBHATHINI** (*Department of Linguistics, Tamil University, Thanjavur 613005*). **CONTRASTIVE STUDY OF A FEW COMPLEMENTIZERS IN TAMIL AND SINHALA.**

Sentence embedding can manifest itself in the forms as Relativization, Complementa-  
tion and Nominalization. Complementation is a process by which a clause is embedded or  
adjoined into sentence, by means of Complementizers.

Sinhala makes use of Complementizers such as /kiyela/, /eke/, /bave/, /vage/. Tamil  
makes use of a number of complementizers which includes /enru/ and enpatu/. It is proposed  
to contrast to the use of Sinhala kiyela/ with /enru/ and /enpatu/.
